A Picture is Worth a Thousand Words...

Our Gasket Picture Guide (pgs. 60-70) shows all of the gaskets we offer in SSC# order. Gasket dimensions are also included for proper identification.

Use SSC's Website to Find Your Replacement Parts and Order Online!

- Place orders online using our shopping cart feature.
- Find more than 2700 different listings of gaskets, O-rings and seals using our multi-functional "Part Search" engine. Part listings are also accompanied by a picture for your reference.
- Take advantage of our unique "View Past Orders" section to look at previous orders you've placed. You can then order from this list.
- This Website also enables you to save the current order you are working on by using our "Save Cart" feature. You can come back to it at another time if you are interrupted or save all of your orders for future reference. These can be activated to be your current order/cart at any time.
- Registration is required. This ensures that only Pool & Spa Dealers and Service Companies, not the general public, can see pricing and use the shopping cart.
- Download the SSC catalog, price list and all of our literature from the website.

PUMP REPAIR/SERVICE KITS

SSC's Pump Repair and Service Kits (Go-Kits) make it quick and easy to service pumps. We eliminate the guesswork sometimes needed when getting the right parts together for pump repair or service. All kits include the necessary O-rings, gaskets and pump seals. Each kit's contents and application are clearly identified on the package. All are skin-packed for display and bar-coded.

FILTER O-RING / GASKET KITS (RO-KITS)

FILTER O-RING/GASKET KITS

As with our pump kits, we have eliminated the guesswork sometimes needed when gathering parts to service cartridge, D.E. and sand filters. All Filter Kits include the necessary O-rings and gaskets and each kit's contents and application are clearly identified on the package. All are skin-packed for display and bar coded.

Use SSC's Website to Find Your Replacement Parts and Order Online!

- Place orders online using our shopping cart feature.
- Find more than 2700 different listings of gaskets, O-rings and seals using our multi-functional "Part Search" engine. Part listings are also accompanied by a picture for your reference.
- Take advantage of our unique "View Past Orders" section to look at previous orders you've placed. You can then order from this list.
- This Website also enables you to save the current order you are working on by using our "Save Cart" feature. You can come back to it at another time if you are interrupted or save all of your orders for future reference. These can be activated to be your current order/cart at any time.
- Registration is required. This ensures that only Pool & Spa Dealers and Service Companies, not the general public, can see pricing and use the shopping cart.
- Download the SSC catalog, price list and all of our literature from the website.

PLASTIC CASE GAUGES

Our plastic case gauges are corrosion and weather resistant. They can be used in extreme environmental situations such as outdoor use or very wet areas where a standard gauge might rust. These economical gauges are constructed with a plastic case, a plastic lens and all brass internals.

LIQUID (GLYCERIN) FILLED GAUGES

SSC's glycerin filled gauges are good for applications where there is a lot of movement. The liquid inside the gauge acts as a vibration and pulsation damper giving the technician a more accurate read. They are constructed with a stainless steel case, a plastic lens and all brass internals.

BRASS ADAPTER FITTINGS FOR GAUGES

Our Brass Adapter Fittings are handy to have in case the service technician needs to convert the pipe thread size for the gauge opening on the equipment he is working on to another size to fit the particular gauge he has in his tool box.

WATER TEST GAUGE

2 1/2" Dial Size
3/4" Female Garden Hose Connection; 0-300 PSI
Made of all brass internals, brass fitting, plastic body and plastic lens.

WITH LAZY HAND

The regular pressure hand pushes the lazy hand to the peak operating or surge pressure point where it remains until you manually reset it. The lazy hand comes in handy when you have to determine if equipment is malfunctioning due to intermittent surging pressure.

GASKET SHEETS

GASKET SHEETS

Available in various thicknesses, SSC's gasket sheets are perfect for emergency repairs and for replacing hard to find gaskets and washers. All materials can be cut into any shape or size. Available in the following materials and sizes:

CORK-RUBBER

The highest quality material of its kind, it can be used to seal applications involving oil or water. It will not shrink, stretch or lose bolt tension.

SSC#	SIZE
GS-1A	6" x 6" x 1/32" TH
GS-1B	6" x 6" x 1/16" TH

GS-1G	20" x 40" x 1/32" TH
GS-1H	20" x 40" x 1/16" TH

BUNA-N RUBBER

This black rubber is ideal for sealing oil applications. It has a high nitrile content which means it is oil resistant.

NEOPRENE

This black rubber is the most popular rubber in the world. Automobile tires are made of neoprene. Very effective in sealing water, it will not dry out or harden as fast as Red Rubber. Do not use this rubber in oil/petroleum product as it will swell up and then break down.

COMBINATION TEFLON / SILICONE LUBRICANT

The LUB-986 lubricates and seals with a patented barrier of silicone and teflon. The U.S.D.A. has rated this lubricant as Food Grade Acceptable. It will not melt, dry out, form gummy deposits, separate, crack, evaporate, run or drip. It will safely lubricate O-rings, seals, bearings, valves, gears, faucet components and more.

STICKY SPRAY

Sticky Spray is a convenient way to hold O-rings and gaskets in place during installation. Spray the surface where you are installing the part, wait 1-2 minutes until it becomes tacky and apply the part. The part can easily be separated from the surface at a later date. This product works especially well in troublesome installations such as putting spoke gaskets in multiport valves or cover gaskets in Hayward Super Pumps.

ANTI-HAIR SNARE DRAIN COVER

This drain cover offers an anti-hair entanglement design and a hi-low step design of the fingers on the drain cover which minimizes body entrapment and vacuum sealing (evisceration). The openings in this drain will also lessen the chance of toe and finger entrapment. The universal fastening design allows it to be retrofitted onto every known circular drain except the Sta Rite Swim Quip. This drain has a 2 year limited warranty.

SSC's Pump Repair and Service Kits (Go-Kits) make it quick and easy to service pumps. We eliminate the guesswork sometimes needed when getting the right parts together for pump repair or service. All are skin-packed for display and bar-coded. See pgs. 73-75.

BOLT PACKS

SSC's Bolt Packs include any of the above listed Pipe Flange Gaskets individually packed with the appropriate ASTM-A307 Grade 2 hex head bolts with finished hex nuts. These kits offer the convenience of having all flange parts in one package. To order a kit just add the letters "BP" to the end of the gasket number listed above. For example to order a 4" full faced flange gasket (1/8" Red Rubber) bolt pack, use part #PF-400RF9BP.

Use SSC's Website to Find Your Replacement Parts and Order Online!

- Place orders online using our shopping cart feature.
- Find more than 2700 different listings of gaskets, O-rings and seals using our multi-functional "Part Search" engine. Part listings are also accompanied by a picture for your reference.
- Take advantage of our unique "View Past Orders" section to look at previous orders you've placed. You can then order from this list.
- This Website also enables you to save the current order you are working on by using our "Save Cart" feature. You can come back to it at another time if you are interrupted or save all of your orders for future reference. These can be activated to be your current order/cart at any time.
- Registration is required. This ensures that only Pool & Spa Dealers and Service Companies, not the general public, can see pricing and use the shopping cart.
- Download the SSC catalog, price list and all of our literature from the website.
